To Whom It May Concern:

I am writing in praise of Walter L. Gardner and his firm. Mr. Gardner is my computer consultant for my home and office computer systems. He has assisted me with the purchase, set up and coordination of both systems and maintains their operation and security.

I have consistently found Mr. Gardner to be prompt, professional, informative and friendly. It is comfortable to discuss with him any concern I may have about my computer systems. His services are excellent. I would recommend him without reservation.
